

第廿六屆學生會會員大會 暨選舉諮詢大會

My Grateful Heart

by Principal Wan Mei Yuk

Through the door I entered. The room was neat with windows along one side overlooking Shek Ku Street. I sat facing three gentlemen – Principal Hon, Vice Principal Lei and Vice Principal Chan and humbly answered their questions. Little did I know that it was 29 years later that through this door I departed with a heart full of gratitude and love.

People asked me how I felt after all these years. Let me begin by thanking all the remarkable people that I had the fortune to meet – every director, manager, supervisor, teacher, staff, janitor, student, parent and alumnus. You are the best people anyone could hope for and I will forever be grateful. I will never forget the Christmas dances and smiling faces that pack every corner of the campus in December. I will never forget the determination to serve fellow schoolmates when experiencing democracy in the Students' Union Election.

I will never forget the tireless efforts, affection and amazing talents exhibited at the school anniversary celebrations and information days. I will never forget the solidarity, extraordinary potentials and wholehearted devotion in the inter-school competitions.

Over the course of these 29 years, not only have I seen the introduction of new curricula, public examinations and teaching strategies, but also the emergence of information technology at school – from arts and science streams to a hundred choices of free elective subject combinations; from HKCEE and HKAL to HKDSE; from overhead transparencies and film slides to PowerPoint slides, visualizers and iPads; from project learning, 'Reading to learn', 'Language across the curriculum' to collaborative learning, effective learning and reflective learning; from eClass to Google Classroom, Meet and Zoom...I came as a teacher and I departed as a student. Every day I learn from each of you. You made me a better teacher, you made me a better principal and you made me a better student.

Now through this door I leave. To Principal Chen I open the door, just as Principal Wong did for me. I leave with peace of mind as there is a team of dedicated teachers and staff at school. Though this year is a turbulent one rocked by social unrest and COVID-19, I am confident that the values and harmony that have been laid by our predecessors can surely be upheld no matter how challenging the future can be.

It is the honour of my life to serve this school I love, to be the first female Vice Principal and first female Principal but definitely not the last. My sincerest blessings to Hoi Ping as it proudly moves forward to the 50th glorious year!

We have installed an infrared body temperature screening system to monitor the temperature of students and staff.

School Measures in Fight Against Epidemic

To fight against the coronavirus, the school requires all persons on the school premises to wear masks and have their body temperatures checked.

The school strictly follows protocols issued by the Centre for Health Protection: thorough cleaning and daily disinfection are carried out; good indoor ventilation is maintained; more water taps have been installed to facilitate frequent handwashing; an infrared body temperature scanning system has been set up at the school entrance to monitor staff and students' body temperatures. In addition, hand sanitisers are easily accessible on campus to ensure good personal hygiene among staff and students.

Earlier, a care package was sent to S6 students as encouragement for their DSE preparation. It included a message penned especially by Principal Wan, healthcare products, and snacks from the PTA.

Acts of Kindness Are the Best Antidotes

Amid the uncertainty brought about by the spread of novel coronavirus, Hoi Ping has been blessed with the care from teachers, parents and alumni.

More than 9000 surgical masks and 100 hand sanitisers were donated by the Hoi Ping Chamber of Commerce, teachers, parents and alumni and were distributed to families in need. These generous donations have contributed greatly to the fight against the epidemic.

Thanks to the help of teachers and staff, the above health-care products reached the hands of those in need quickly.

We would like to express our deepest gratitude for everyone's contribution.

Sanitary products donated by the school sponsoring body, teachers, parents and alumni are easily accessible in different parts of the campus.

Hoi Ping Online Learning

In these challenging times, Hoi Ping remains dedicated to providing students with an exemplary education. Students can access Google Classroom to find online learning materials, self-learning materials and live lessons, which aim to keep students motivated and interested until school resumes. Graded assignments and enriching teaching videos for each subject are also posted on Google Classroom.

In addition, students who do not have appropriate devices at home may borrow iPads from the school.

To facilitate online learning, the Staff Development Team has organized training workshops for teachers, including one for live-teaching.

Stay motivated with online learning!

Students keep learning alive with live online lessons.

The Innovative Solution for Future Competition - Champion

Four S4 students participated in The Innovative Solution for Future Competition on 5th July 2019. It was organised by the Faculty of Science, Hong Kong Baptist University. They invented a boiling detection device for kitchen stoves which uses waste heat as the power source. This ingenious idea won the team the championship. It is an acknowledgement of our students' inventiveness and visionary design, aimed at creating a better life for homes in the future.

The team of four young inventors receiving their well-earned first prize.

Hoi Ping 'Olympian' Brings Medal Home

S5 Biology student Chum Bruce Y.C. was selected to be one of the Hong Kong representatives at The 30th International Biology Olympiad that took place from 14th to 21st July 2019. In this competition, he needed to complete both theory and practical exams. An avid scholar ready to take on intellectual challenges, he gave his best and battled with students from more than 70 countries across five continents, and eventually captured the Bronze Award in this international competition.

Bruce (first left) flies all the way to Hungary, the host city, as a Hong Kong representative and comes home with an extra medal in his luggage!

Hoi Ping First-timer Wins Medal

Liu Hiu Long (4D) represented the Hong Kong Athletics Team to participate in The Guangdong-Hong Kong-Macao Greater Bay Area Athletics Open Competition (16th to 18th August 2019) in Guangdong. It was the first time for Liu to represent Hong Kong in an athletics competition. He defeated other elite athletes from the Greater Bay Area and came second in 110 metres hurdles, which is a remarkable feat in a regional competition!

Liu's win is a defining moment in his fledgling career.

Representatives of Chi House have a busy time during the prize presentation ceremony—they have the most medals to take home!

Ready, Set, Splash!

The biennial Swimming Gala was held on 18th October 2019 at Kwun Tong Swimming Pool. About 100 students competed in the events this year. All competitors did their very best to win a medal for themselves and their houses, whereas the cheering teams' enthusiastic chants added a lively backdrop to the Swimming Gala.

All eyes were on the main swimming pool that day, and athletes did not fail to disappoint. After half a day's breathtaking events, Kan House won the Boys Overall Championship; however, it was Chi House that bagged all the remaining prizes: Girls Overall Champion, Overall Champion, and the Cheering Team Teachers' Shield.

All-out for Glory in the Athletics Meet

The 46th Athletics Meet was held on 14th October 2019 (Heat) and 15th October 2019 (Final) at Wan Chai Sports Ground. Around 450 competitors participated in the Athletics Meet this year, with the keen competitions displaying our students' athleticism and effort in training.

Dedicated to their houses, students gave all they could in the competitions. Two houses emerged victorious on the Final Day: Kan House was crowned the Girls and Boys Overall Champion, and was thus granted the title of Overall Champion. Competition off-field was just as fierce: eventually, it was Kin House that captured the Decoration Award and Cheering Team Award.

The Kin House team shows off its spirited cheerleaders and eye-catching props.

A Camp That Changes Lives

The Growth Mindset Camp is a perfect marriage of Major Concern 1 and Major Concern 2 visions. With the joint effort of the two Major Concern teams, it was held during the summer holiday to develop students' confidence, perseverance and positive mindset. Working together to complete problem-solving activities and engaging in reflective discussions with their peers and teacher mentors, students recognised their strengths and overcame their weaknesses. They also learnt the importance of a positive mindset, which helped them set aspiring goals.

Student participants and teacher mentors have benefited from each other's presence in the camp.

Festive Holidays at Hoi Ping

Our school's Christmas celebration was held on 20th December 2019. Apart from a performance of the school choir that kicked off the seasonal celebration, teachers rejoiced over the merry occasion with Christmas carols. We also had a band performance and a Cantonese drama. After, classes demonstrated their self-designed choreographies to compete in the Inter-class Dance Competition. In the 'Dance Together' session, which is a long-established activity at Hoi Ping and the highlight of the day, students, teachers and alumni performed traditional Hoi Ping dances on the playground together and had great fun. The celebration ended with subsequent class parties.

Students and teachers show off their dancing skills.

Election Battleground

The Students' Union Day was held successfully on 30th September 2019. Similar to elections in the previous years, the competition between the two cabinets, Equinox and Igniters, was excitingly keen. Both designed beautiful posters and banners for promotion, and recruited many student helpers to support them. They unleashed their leadership talents and displayed excellent teamwork. In the end, Equinox won the election. Congratulations to Equinox!

Students display great poise during elections.

Engineering Springs to Life

Staff members of our school partner, the Electrical and Mechanical Services Department (EMSD), took students through the Life Buddies Mentorship Programme this year. On 30th November 2019, our students witnessed engineering coming to life on a visit to the North District Hospital and Wo Hop Shek Crematorium. Staff members unpacked the pivotal roles engineering and science play in hospitals and crematoria by explaining the scientific rationales behind the tools surgeons use, setups in wards, and professional cremation services. Students learned a practical lesson on the application of engineering and science.

"Life Buddies" beam with new knowledge about engineering and science.

S4 Students Create Innovative Air Purifier

This summer, a team of S4 students, Li Ting Ping, Au Kwan Wo, Yue Ho Tin and Tai Chun Ho Ryan, participated in the 52nd Joint School Science Exhibition. The theme of this year's competition was "Journey". The team designed and produced an air purifier with bamboo charcoal filters for travelers on board airplanes which was titled "To Your Health, 「竹」君健康". This air purifier was featured in an exhibition at the Central Library from 19th to 26th August 2019. The team has gained insight from this invaluable experience.

Students take pride in their creation.

Learning from Our Elders

The S1 Service Learning Programme, held in the post-examination period, was a great success. S1 students prepared materials in the first lesson and visited the homes for the aged in the second lesson. During the visit, students played some simple games with the elderly and chatted with them. Students learned more about the needs of the elderly and found that some elderly people were very active in the games and conversations. Both the elderly and students had a wonderful afternoon.

Students learn valuable lessons from their elders.

Training Future Leaders

A leadership training camp for the upcoming chairpersons was held on 15th July 2019 at the Jockey Club Sai Kung Outdoor Training Camp. The purpose of the camp was to enhance the leadership skills of the club chairpersons of the coming academic year. While students were solving problems and overcoming challenges, they demonstrated their determination and team spirit. They will surely be competent student leaders of our school in the coming year.

Students work together to solve problems.
